

FY 2004 and 2005 Community Residential Services Provisos

**See Chapter 276, Laws of 2004 (2004 Supplemental Operating Budget)
Sec. 205(1) (DSHS-Developmental Disabilities, Community Services)**

“(c) \$562,000 of the general fund -- state appropriation for fiscal year 2004, \$1,767,000 of the general fund -- state appropriation for fiscal year 2005, and \$2,266,000 of the general fund -- federal appropriation are provided solely for community residential and support services. Funding in this subsection shall be prioritized for (i) residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; (ii) clients without residential services who are at immediate risk of institutionalization or in crisis; (iii) children who are aging out of other state services; and (iv) current home and community-based waiver program clients who have been assessed as having an immediate need for increased services. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

(d) \$563,000 of the general fund -- state appropriation for fiscal year 2004, \$1,390,000 of the general fund -- state appropriation for fiscal year 2005, and \$1,905,000 of the general fund -- federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues. Funding in this subsection shall be prioritized for (i) clients being diverted or discharged from the state psychiatric hospitals; (ii) clients participating in the dangerous mentally ill offender program; (iii) clients participating in the community protection program; and (iv) mental health crisis diversion outplacements. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.”
